Program

Catholic Education Melbourne has partnered with the National Excellence in School Leadership Institute (NESLI) to offer the Building High Performance School Leadership Development Program. This program has been designed to build leadership team capability in Catholic schools.

This program has been created for principals and their leadership teams and aims to highlight and develop personal and collective insight and skills. This will assist team members to develop the capacity to recognise, appreciate and capitalise on the diversity within their team, leading to better team and school outcomes.

Overview

This is a blended team development program that will provide all participants with a range of knowledge and skills for working as a high performing team.

The program runs over a five-month period to enable participants to apply their learning, reflect on their practice, examine how they are performing as a team and identify the outcomes they have achieved.

The program elements include:

- Team Management Profile (TMP) questionnaire
- two face-to-face workshop days
- individual school team workshops (on site)
- principal coaching.

This program is fully funded by Catholic Education Melbourne
